NUMBER:    476/2022

Recommendation:
Approve agreement between County of Yuba and Pisor Fence Division, Inc. for fence maintenance at Animal Care Services, and authorize Chair to execute.

Background:
The Animal Care Services Facility was constructed in 2003-2004. It is unknown if the deteriorating fencing was installed during the facility construction, or in place prior to construction. The current fence is wire, similar in nature to chain link, and is worn out, collapsing at various sections of this partition fence. The fence repair would allow livestock to roam and graze in addition to providing space for potential emergency evacuations in the County. Recent cases have stressed the facility to maximum occupancy in order preserve live evidence.

Discussion:
The Administrative Services Department, in collaboration with the Yuba County Sheriff’s Animal Care Division, developed a Request for Proposal for the fence repair work and selected a vendor through the process. The Animal Care Services facility is in dire need of this work to be done immediately in order to help house the unprecedented number of animals currently at the facility. In addition to this immediate need, the ability to provide housing for animals displaced from evacuations is more necessary than ever before. Currently, many of these animals would be required to be housed in the Foothill region of the county, instead of the ACS facility itself. This placement presents issues when monitoring and treatment are needed, which can be provided more appropriately at the facility.

Committee Action:
This item is being presented directly to your full Board in order to get this critical work completed as soon as possible.
Fiscal Impact:
General Fund - $105,905
Non-General Fund - None
Source of Funds - Board Approved Measure K Allocations
