The County of Yuba

TO: Board of Supervisors
FROM: Daniel Peterson
SUBJECT: Community Development and Services: Adopt Fiscal Year 2022-2023 Program for Public Information, a component of the Community Rating System and the County’s Floodplain Management Efforts.

DATE: October 11, 2022
NUMBER: 502 / 2022

Recommendation

Adopt the “Program for Public Information” which is part of the County’s floodplain management efforts and a component of the Community Rating System.

Background

FEMA manages the National Flood Insurance Program (NFIP), which provides flood insurance and disaster relief to property owners who live in participating communities. Participants in the NFIP must meet minimum standards for construction and floodplain management. FEMA encourages communities to implement higher standards by providing discounts on flood insurance rates. FEMA provides these discounts to communities under the Community Rating System (CRS) program. Organizing a Program for Public Information (PPI) committee to aid development of the County’s public outreach program on flood-related issues is a primary component of the CRS program. The current PPI Committee members are as follow:

<table>
<thead>
<tr>
<th>Name</th>
<th>Organization</th>
</tr>
</thead>
<tbody>
<tr>
<td>Keith Anthony</td>
<td>Farmers Insurance</td>
</tr>
<tr>
<td>John Nicoletti</td>
<td>Yuba-Sutter Habitat for Humanity</td>

<tr>
<td>Ryan Petree*</td>
<td>Elite Services</td>
</tr>
</tbody>
</table>
Discussion

A key activity under the CRS program is public outreach. The “Program for Public Information” is an ongoing public information effort to design and transmit the messages that the community determines are most important to the safety of its citizens. For CRS credit, a community must develop a Program for Public Information according to a seven-step planning and public involvement process, and the community’s governing body must formally adopt the Program for Public Information on an annual basis. The “Program for Public Information” submitted for Board adoption was developed by a committee that meets the FEMA requirements, and includes key messages, identifies target audiences, and proposes specific activities or projects to disseminate the key messages throughout the County.

Committee Action:

The committee was bypassed as this is an annual process and both the CRS program and the Program for Public Information have already been presented to the full Board.

Fiscal Impact:

The fiscal impact of adopting a Program for Public Information is minimal. Staff anticipates that public outreach efforts will require 60 hours of annual staff commitment. Participation in the overall CRS program requires additional staff activities such as reviewing and maintaining Elevation Certificates, providing floodplain management information and advice, maintaining flood maps, and participating in flood warning and response programs. These efforts currently save local property owners over $60,300 per year in flood insurance premiums. This amount will continue to increase as FEMA phases out subsidized flood insurance rates pursuant to the Biggert-Waters Flood Insurance Reform Act of 2012.
