

The County of Yuba

Community Development and Services Agency

TO: Board of Supervisors

FROM: Community Development and Services Agency, Daniel Peterson

SUBJECT: Approve amendment No. 2 with Holdrege & Kull Consulting Engineers and Geologists (an NV5 company) for professional quality assurance services, and authorize Chair to execute.

DATE: 3/14/2023

NUMBER: 77/2023

Recommendation

The Public Works Department recommends that the Board of Supervisors approve amendment No. 2 with Holdrege & Kull Consulting Engineers and Geologists, an NV5 company, to provide quality assurance services for Public Works and authorize Chair to execute.

Background

For capital improvement projects managed by Public Works, material placed must be tested and verified in conformance with a quality assurance program (QAP) approved by CalTrans. Public Works does not have a laboratory and staff to perform quality assurance testing. Procuring a consultant with a laboratory and testers certified by CalTrans Independent Assurance and ASTM is necessary to complete capital improvement projects funded using state and federal funds.

The construction projects requiring quality assurance services include projects such as bridge replacements, street rehabilitations, pedestrian and bicyclist improvement projects, and drainage improvement projects.

Discussion

Rates for this on-call contract expired on 12/31/2021. The Consultant agreed to carry the expired rates through 2022. This amendment allows the Consultant to update the 10-H2 table (rates table) so it may reflect the most current rates billable for 2023.

Committee Action:

The Land Use & Public Works Committee was bypassed as this agreement and type of work is typical for the various projects included in the Public Works Budget, and the request is routine in nature.

Fiscal Impact:

No funding commitment, administrative only, staff time only
