September 5, 2023

To Trustee/Responsible Agencies;

The Feather River Air Quality Management District (District) has received an application for an Authority to Construct permit that has been determined to be subject to the California Environmental Quality Act (CEQA). The District is serving as the Lead Agency, as it appears to be the only public agency issuing a discretionary permit for this project. Pursuant to Public Resources Code section 21080.3, the District is hereby consulting with responsible and trustee agencies regarding the project before determining if a negative declaration or an EIR is required.

Authority to Construct Permit Number: P28007D

Facility Name/Contact: Lakeside Colonial Chapel, Victor Semenyuk

Physical Address: 830 D Street, Marysville, CA 95901

Description: The facility is applying to increase the annual throughput from 500 charges (casket containing individual bodies) to 1,000 charges per year. The facility has a 1.5 million Btu/hour natural gas fired cremation unit at an existing funeral home. The cremation unit operates at temperatures of at least 1,500 degrees Fahrenheit. The unit consists of a primary and a secondary burner.

Please provide your project comments/conditions by September 19, 2023. If the District does not receive a response by this date, we will assume that your agency has "no comment." If you require additional time for review, please contact Peter Angelonides at (530) 634-7659 ext. 209. You may submit comments by email to fracmd@fracmd.org, by FAX to (530) 634-7660, or mail to FRAQMD, 541 Washington Avenue, Yuba City, CA 95991.

Regards,
