

The County of Yuba

Administrative Services

TO: Board of Supervisors

FROM: Administrative Services, Director, Perminder Bains

SUBJECT: Approve release of Request for Proposals to install two new uninterruptable power supply battery systems on first floor of Courthouse, and authorize Administrative Services to distribute.

DATE: January 9, 2024

NUMBER: 664/2023

Recommendation:

Administrative Services' staff recommends the Board of Supervisors approve the release of Request for Proposals to install two new uninterruptable power supply (UPS) battery systems on the first floor of the Courthouse and remove end-of-life units in the Courthouse basement, and authorize Administrative Services to distribute.

Background and Discussion:

The UPS units provide continuous power to mission critical equipment such as phone systems and data services. These UPS systems are at end of life and are currently located in the basement of the Courthouse. The proposed location for the two new units on the first floor of the courthouse is much more suited to the conditions that UPS systems require to be properly maintained. Relocating and replacing these units will increase the reliability of these units in case of power surges, outages, or emergencies and will prolong the life of these new units.

Staff recommends the Board approve the release of this RFP and authorize Administrative Services to distribute. The estimated cost of this project is approximately \$120,000.

Committee Action:

This item is brought directly to the Board of Supervisors due to the routine nature of this request.

Fiscal Impact:

No funding commitment, administrative only, staff time only.
