Dear Yuba County Supervisors,

On behalf of 530 Recovery & Everything Off Road Inc., we sincerely appreciate the $1,000 we received. This generous contribution is vital in keeping our nonprofit organization operational and making a significant impact. We use these funds to cover essential organizational expenses, such as fuel, supplies, and equipment, enabling us to dedicate our time to cleaning hard-to-reach areas affected by illegal dumping. Additionally, we allocate resources to host free family events, including "Touch a Truck" and holiday gatherings with Santa.

We extend our heartfelt thanks for Yuba County's unwavering support. Your assistance has empowered us to expand our outreach within the community and enhance our cleanup efforts, which occur every last Saturday of the month in collaboration with Saylove. Your generosity will allow us to continue providing these essential services. Thank you for your continued support!

Attached, you will find a selection of credit card statements and/or receipts from our 530 OFF ROAD credit card, which was utilized for operating expenses and equipment purchases. Due to the lack of consistent donations, our credit card debt has remained at $3,400 since we ceased using the card, fearing we wouldn't be able to make the payments. When we applied for and received funds from Yuba County, I had a meeting with Jon Messick on 6/30/2026. I explained our debt situation and asked if I could use the funds for past purchases to reduce our debt, given that we utilized the 530 card for the benefit of Yuba County. He didn't have any objections to my plan and mentioned that anyone with questions should feel free to reach out to him.

Sincerely,
The 530 Recovery & Everything Off Road Team

Dustin Daundivier
